ABOUT ME

I am Muhammad Fikri, a sixth-semester student in the Information Technology program at the State Polytechnic of Banjarmasin, class of 2022. I have a solid understanding of programming and computer networks. I am passionate about pursuing a career in Web Development, especially in Back-End Development and Networking. I am committed to continuous learning, deepening my knowledge, and gaining practical experience to enhance my skills in these fields.

EXPERIENCE

Fiber Optic Technician Intern   2021

- Assisted in the installation and maintenance of fiber optic networks during an internship at Upaya Teknik (a contractor for PT. Telkom), contributing to improved service reliability and customer satisfaction in the assigned coverage area.

2013 – Now
